

When to call the Staff Illness COVID-19 number?

701.741.9646

If you or anyone in household is experiencing symptoms or has had *contact.

Updates are in bold and underlined.

- Many symptoms noted on the screening have been recognized by staff members as something else, such as common allergies. However, these seemingly innocent symptoms are also experienced by a number of people with positive COVID-19. Please note, it is important to call the COVID Staff Illness line to discuss any ONE symptom listed below that you may be experiencing.
- You have had close *contact with someone under investigation for COVID-19 or have had close *contact with someone who has tested positive for COVID-19 (someone contacted by ND Department of Health/Public Health contact tracers)
- Fever at 100.4 or greater and fever at 99.5 and greater if you are over 60.
- You live in a household or have close contact (example: friends who you regularly see) with someone who has new onset respiratory symptoms, is being tested for COVID-19, has tested positive for COVID-19, or works at a workplace with positive COVID-19 tests.
- You have ANY ONE of the following: cough, runny nose/congestion, sore throat, muscle aches, headache, fatigue, shortness of breath/difficulty breathing, chills, loss of taste and/or smell, vomiting, or diarrhea.
- For Domestic and International travel, contact your supervisor in advance.

*Contact defined as being within approximately 6 feet or within the room or a care area for a prolonged period of time defined as 15 minutes (e.g. Healthcare personnel, household members) while not wearing recommended PPE (i.e. gowns, gloves, respirator, eye protection) or having direct contact with infectious secretions of a COVID-19 case (e.g. being coughed on).
